

Here is our burndown chart in terms of issues:

Here is our burndown chart in terms of story points:

Unfortunately, we didn't assign story points until later on in the sprint, so the burndown charts are not as accurate as we would like. However, we have better integrated Jira into our workflow since our last sprint. Moreover, for the next sprint, we will try to make better use of Jira and create a more meaningful burndown chat.

Many of the issues in this sprint are very close to being completed, but are not quite finished. We expect that by the end of the next sprint that many more issues/story points will have been completed.
