

Here is our burndown chart in terms of issues:

Here is our chart in terms of story points.

Unfortunately, we didn't assign story points until late in the sprint, so the burndown charts don't really reflect much meaningful information. Future sprints will not have this issue.

Many of the issues in this sprint are very close to being completed, but are not quite finished. We expect that by the end of the next sprint that many more issues/story points will have been completed.
